Create a Bibliography

The first screenshot shows a dropdown menu for source types including Website, Book, Newspaper, Journal, Database, and All 56 options. The second screenshot shows a confirmation page for a website source with fields for source type, article title, and contributors. The third screenshot shows the final bibliography entry and export options like 'Save as Google doc' and 'Print as Word Doc'.

1. Choose source type

2. Confirm, modify or add info to create citation

3. Compile bibliography and export to Word or Google Docs

Take Notes with Notebook

The first screenshot shows virtual notecards for Leadership Styles (S1-S4) and Development Levels (D1-D4). The second screenshot shows a thesis outline with sections for Leadership Styles and Situation Approach to Leadership. The third screenshot shows a 'Print Options' dialog box with checkboxes for 'Outline with Notes Data' and 'Notes'.

1. Create virtual notecards

2. Build outline

3. Print notecards and/or outline to hand in
